Secure Remote Backup

Backup your data nightly across the Internet

How long would it take you to recreate all of your business documents from scratch? Could you recreate them? This is a very simple question that only gets asked after a computer crashes. Businesses and individuals do not think about backups and disaster recovery on a daily basis. It is only when your data is no longer available does someone ask "Who was responsible for the backups?" Most companies do not have the technical staff on hand to perform backups and restores.

Even if you have a local backup, having a remote backup can be very beneficial. Benefits of our remote backups include the following:

- Data encryption: Secure your data locally before it is sent over the internet

Return on Investment (ROI) for Executives

The question isn't "Can you afford Northshore Micro?" the question is "Can you afford not to have Northshore Micro?"

Do you have multiple spread sheets you use on a daily basis collecting the same information? Do you have an older program you cannot get support for? Northshore Micro can develop a web based application to reduce your repetitive tasks and streamline your business process. Depending on the number of users accessing the data, most of what you need may already be installed on your computer.

Select software from our inventory to enhance your computer, from Norton Antivirus to Microsoft Office, we have the software you need. If your computer is aging or needs upgrades, Northshore Micro can build a custom computer to meet your requirements or upgrade your current computer.

How much is your data worth? A simple question that may not have been given much thought. Hurricane Katrina has made businesses rethink their backup / disaster recovery solutions. What data do you

continued on page 2

- In the event of a catastrophic event to your office, data is stored at a remote location
- Backups run automatically and are scheduled. There is no need to worry about manually running your backups

How much do you think a service like this is worth, to have the peace of mind knowing that in the event of a catastrophic failure, you could be up and running in a few hours? Would you be surprised if I told you that backup packages start at as little as \$39.99 a month plus installation fee? If you think about the labor hours and potential downtime lost data can generate, you will realize that for as little as \$39.99 a month, your data can be safeguarded and you can avoid this unnecessary pitfall.

Please visit www.northshoremicro.com for a presentation about remote backups. ■

Computer Loan Program

For our business clients, Northshore Micro offers the "Computer Loaner Program". This is a free service offered to businesses that are having their computer repaired by Northshore Micro. What this service offers is a temporary replacement computer for your use while your computer is in for repairs.

Our "Business Loaner" computers come with Windows XP Professional, Norton Antivirus 2008, OpenOffice (Microsoft Office Compatible (Word, Excel, PowerPoint and Access), and CD/DVD burning software. Further details are available at www.northshoremicro.com. ■

need? What software do you require to use your data? Northshore Micro can configure a solution to meet your requirements. ■

The staff at Northshore Micro understands the vital role computers now have on daily activities; from the Business client to the Home user, computers have become a way of life.

Monthly Computer Maintenance

Maintaining your computer can reduce cost and loss

Regular maintenance of your computer is necessary for optimal performance and stability. Performing this necessary maintenance keeps your computer tuned up as well as can show indicators of potential failures before they happen. Identifying these possible failures before they happen can mean the difference of resolution to the problem or lost data.

We now offer monthly maintenance contracts where we will log in during off hours (after hours / weekend access required) to perform this maintenance. Ask our staff for further details or visit us at www.northshoremicro.com. ■

Pre Purchased Service

Pay less now....Use later

At the request of some of our customers, we have packages available for Technical Support and Service Call fees. The technical support package includes 5 hours of support, while the service call package includes 5 service calls. Packages can be purchased individually of each other. Pre-Purchased service is offered at discount of our current hourly charge. Ask our staff for further details or visit us at www.northshoremicro.com. ■
